EDUCATION

University for Development Studies

Program: Bachelor of Science, Computer Science   Expected Jun 2025

Academic Standing: Second Upper

Relevant Courses: Fundamentals of Database Systems, Visual Programming with Visual Basic.Net, Web Application Development, System Analysis and Design, DataStructures and Algorithms

C.K Tedam University of Technology and Applied Sciences

Diploma in Computer Science   Graduated 2022

Academic Standing: Pass

Relevant Courses: Programming in Java, Electronic Commerce, System Analysis and Design, Programming in C++ (Object Oriented), Web Application Development

PROJECTS AND EXPERIENCE

Hotel Booking Web Application: Typescript, Next, Tailwind, Node   In Development

- I created an intuitive user interfaces with Next and Tailwind.
- I integrated with Sanity Studio and created schemas for various hotel rooms and users
- I implemented user authentication with Google auth and integrated Stripe as a payment system

Business Registration Website: HTML, Bootstrap, JavaScript, PHP, MySQL   Aug 2023

- I collaborated on developing a business registration website as part of a final-year project for students from Tamale Technical University. Hosted at: (http://businessregistration.free.nf/?i=1#steps)
- The project focused on streamlining the business registration process of startup businesses.

Portfolio Website: HTML, Sass, JavaScript   Jan 2023

- Developed a portfolio website hosted at: (http://iddrisuabdulaiyorli.infinityfreeapp.com/?i=1)
- Showcased personal projects and achievements to potential employers.

School Website Development: HTML, Tailwind, JavaScript, PHP, SQL   Nov 2022

- I created a school website hosted at: (https://yortechinstitute.000webhostapp.com/)
- It improved communication and information dissemination within the institution.

WORK EXPERIENCE

Development Intern, Turbines   Jul 2023 – Dec 2023

- I performed system testing on the Turbines Portal, ensuring functionality and reliability.
- I collaborated on the front-end development of a Hospital Management System, contributing to user interface enhancements.

LEADERSHIP EXPERIENCE

Google Developer Student Club Lead   Jul 2023 – Present

University for Development Studies

- I initiated the establishment of the Google Developer Student Club (GDSC) on campus, fostering a community of techenthusiasts.
- I organized informative sessions to educate and engage club members, promoting technology innovation and collaboration

President, Computer Science Society   Jan 2022 – Jul 2023

University for Development Studies

- I effectively represented the society at the SRC General Assembly, advocating for the interests of computer sciencestudents.
- I led the successful registration and recognition of the society on campus.
- I organized and executed various educational and networking events for society members.

SKILLS AND INTEREST

- Programming Languages (JavaScript, Typescript, Java, C#, Python, PHP)
- Web Development (HTML, CSS, Full-Stack Development)
- Frameworks and Libraries (Bootstrap, Tailwind, React, Next, Node, Express, Flutter)
- Software Development (System Analysis and Design, Object-Oriented Programming)
- Database Systems (MySQL, Mongo Db, Database Design)
- Version Control (Git and GitHub)
- Tools (Visual Studio, Android Studio, VS Code, Google Cloud, GitHub Auth, Sanity Studio, WordPress, Postman, Slack)
